**CALL FOR ABSTRACTS**

Abstracts summarizing original, high-quality research of the processes used by researchers, authors, editors, peer reviewers, publishers, funders, universities, and any other stakeholders to improve the conduct, reporting, quality, integrity, and dissemination of scientific research are welcome.

The Congress program will be determined by abstracts submitted by researchers, representing the interests and work of their scientific communities, with priority given to novel, data-driven studies.

New ideas and rigorous evaluations of both old and new processes are encouraged.

Interest continues in studies of bias and how biases can be identified and managed.

**Read the Editorial Call for Abstracts**

Additional details are available [here](#)

Abstracts can be submitted between December 1, 2021, through January 31, 2022.

**PEER REVIEW WEEK 2021**

**Identity in Peer Review**  
September 20-24, 2021

This year's **Peer Review Week**, an annual event led by academic publishers, institutions, societies, and researchers, will be dedicated to the theme "Identity in Peer Review." During the week of September 20-24, 2021, participating organizations will organize virtual events and activities to highlight the role of personal and social identity in peer review and ways the scholarly community can foster more diverse, equitable, and inclusive peer review practices.
